

Thank you for your kind letter and enclosed cheque. I am very pleased to inform you that I had an excellent and informative secondment over the mid-semester break.

The funds helped with the ever-growing cost of flights to Sydney and return and I am very grateful. I would not have been able to have this full experience without your contribution.

My secondment involved working with a very fresh project emerging within the dance world titled the "Dream Dance Company." This company features extraordinary talent not just only in the dancers but also in the director. Marko Panzic (director) wanted to create this company to show that not only contemporary dance and ballet can be seen in a typical theatre setting, on stage. On this secondment I got to see and be hands on with this task. I would have to say that it has opened my eyes to a new world of dance - and its incredible.

Looking forward to being involved and seeing Australia take a hold of more commercial dance.

Thank you again,

Eliza
